The Honorable Silvestre Reyes
United States House of Representatives

Dear Representative Reyes,

We, the undersigned, strongly support the resolution adopted by the El Paso City Council on March 14th, 2006, requesting that the United States Government declare Castner Range as surplus land and consider either a Public Benefit Conveyance or a Conservation Conveyance so that the whole of Castner Range is preserved and no portion is developed.

We respectfully urge you and your staff to work actively with Congress and the Department of the Army to achieve the preservation of all of Castner Range in its natural state for the benefit and enjoyment of all Americans forever.
